PROFESSIONAL SUMMARY

Finance professional with **5+ years of experience** in financial controllership, FP&A, and data analytics — including 4 years at **Fortune 500 company Aon**. I have hands-on experience across the full finance cycle: variance analysis, budgeting, forecasting, month-end close, and ERP systems (Workday, PeopleSoft, Coupa).

I hold an **MSc in Financial Data Science from UCD Smurfit Business School** and am an **Associate of CPA Australia (ASA)** with 6 exemptions, currently working toward full CPA certification. I am comfortable working with data — Power BI, Excel, and Python — and have a track record of turning financial data into clear, useful reporting for senior stakeholders.

SKILLS

Finance	FP&A · Variance Analysis · Budgeting & Forecasting · Financial Modelling · Month-End Close · P2P · R2R · Stakeholder Reporting
ERP & Systems	Workday · PeopleSoft · Coupa · Microsoft 365
Analytics	Power BI · Advanced Excel · Power Query · Python (Pandas, Matplotlib) · SQL (working knowledge)
Soft Skills	Cross-functional Leadership & Collaboration · Board-level Communication · Process Improvement

PROFESSIONAL EXPERIENCE

Analyst — Finance Controllership

Oct 2018 – May 2022

Aon (Fortune 500 · Global Professional Services) | Gurugram, India

Progressed from Financial Associate to Financial Analyst over 4 years, covering financial reporting, month-end close, and P2P/R2R for the Aon India business. Sat on the critical path for the Aon India month-end close, with monthly deliverables required 1–2 days before close so journals could be cleanly incorporated into the entity's financial statements. Led the India-side rollout of the PeopleSoft-to-Workday migration and delivered several documentation and automation projects that became Aon India finance team standards.

Financial Reporting & Month-End Close

- Ran monthly variance analysis and reconciliations across ~30 cost centres and 300+ vendor accounts — identifying coding errors and provision adjustments before close to keep Aon India's monthly financials accurate and audit-ready.
- Prepared month-end journals and reconciliations for the Aon India entity, consistently meeting deadlines critical to the group consolidation process and audit cycle.

ERP Migration & Process Automation

- Built an automated Amex delinquency tracker in Excel that saved the team ~1.5 hours of manual work daily and surfaced credit-card compliance issues before they could escalate.
- Created a single consolidated expense file used across the audit team — improved first-pass review accuracy by 7% in the first quarter of use.
- Played a key India-side role in Aon's global migration from PeopleSoft to Workday — trained on the new system early and authored the reimbursement workflow documentation rolled out to the entire Aon India finance user base, enabling smoother adoption and reducing routine queries hitting the finance team.

Documentation & Knowledge Sharing

- Authored the Aon India Employee Reimbursement Job Aid, distributed quarterly across all departments — reduced finance team workload by ~10% during year-end peak and cut routine reimbursement rejections by ~50% within a year of rollout. Became standard reading during new finance hire onboarding.

Head of Analytics

May 2022 – Jun 2023

AnujJindal.in | Delhi, India

Built the data and analytics function from scratch — designed how commercial and operational data was collected, turned into insight, and used in decision-making across Sales, Finance, Content, YouTube and HR.

- Established a cross-functional analytics group of 8 contributors embedded across five departments — defined the data each function needed to capture, trained them to collect and interpret it, and left the business with people who understood how to turn data into decisions.
- Created a cross-team sync that connected these data streams into coordinated commercial moves — using YouTube engagement to flag lead opportunities, Sales input to size promotions, and Finance's spend-timing patterns to launch them when conversion was highest.
- Built financial dashboards tracking budget vs actuals, cost efficiency, and revenue trends — informing the pricing and budget decisions that contributed to a 5.6% increase in company revenue.
- Built content and audience-performance dashboards — including student speed-and-accuracy benchmarking that let learners gauge their preparation against the wider cohort — driving ~103% growth in YouTube reach.

EDUCATION

MSc Financial Data Science | Grade: 2:1

2023 – 2024

UCD Smurfit Business School (University College Dublin) | Ireland

- **Key Modules:** Financial Analysis, Financial Econometrics, Machine Learning for Finance, Python for Financial Data Science, Derivative Securities, Banking in the Digital Age.
- **Key Projects:** FinTech Incubator, Portfolio Choice & Performance Evaluation, Algorithmic Trading using Machine Learning, Risk Modelling.

BBA Banking & Finance | Grade: 1:1

2015 – 2018

Amity University | India

- Additional minor degree in BA (Economics) · Class Representative of batch 2015–18

AWARDS & RECOGNITION

- **Aon Gold Medal** — awarded in first year at Aon for sustained workload contribution through year-end audit and supporting the team to close books on time.
- **Aon Impromptu Medal** — recognised for building the Amex tracker, automating recurring manual tasks, and authoring the Job Aid that materially lifted team efficiency.
- **Aon Team Gold Award** — cross-functional team recognition for Aon India's COVID work-from-home reimbursement scheme. Owned the finance side end-to-end — tracking claims, auditing submissions, and seeing the process through to payment — enabling employees across all India offices to claim home-setup costs.
- **UCD Advantage Award** — awarded by UCD Smurfit Business School recognising academic standing (2:1), Student Union involvement, and representing UCD in the inter-collegiate cricket team.
- **Global Leadership Certification** — UCD Smurfit, 2024. Awarded for academic performance combined with active community contribution, including volunteer beach cleaning with Flossie and the Beach Cleaners (Dublin).
- **Silver Medallist, BBA Banking & Finance** — ranked 2nd in graduating batch, Amity University 2018

PROFESSIONAL CERTIFICATIONS & MEMBERSHIPS

- **CPA Australia — Associate (ASA):** 6 exemptions granted. Currently working toward full CPA designation
- **New York Jobs CEO Council — Financial Analyst Job Simulation:** Assessed feasibility of a BigTech partnership and presented the findings to senior bankers

Career Note: After finishing my MSc in 2024, I moved internationally following my marriage. I used the time to keep progressing through my CPA Australia program and have now relocated permanently to Melbourne.
